

## ADDITIONS AND CORRECTIONS

---

1998, Vol. 102B

**Nicholas Leventis,\* Muguo Chen, Xuerong Gao, Maria Canalas, and Peng Zhang:** Electrochemistry with Stationary Disk and Ring–Disk Millielectrodes in Magnetic Fields

Page 3515. The limiting current,  $i_l$ , has been misprinted as  $i_e$  in eq 7 and in the sentence “The dependence of  $i_e$  on  $[\text{TMPD}]_{\text{bulk}}$  ...” in section II.a.

1998, Vol 102B

**Hanjo Lim, David G. Schultz, Eric A. Gislason and Luke Hanley\*:** Activation Energies for the Fragmentation of Thiophene Ions by Surface-Induced Dissociation

Page 4574. Equation 2 should read as follows

$$f_i(E) = [(E - A_i)^2/E] \sum_{k=0}^{\infty} a_{i,k+1} (E - A_i)^k / (k + 1)$$

Page 4579. The text following equation A2 should read “where  $\alpha$  and  $\beta$  are constants (If the relationship is nonlinear, we approximate it as linear with  $\alpha = J = dE_{\text{surf}}/dE$ ). The second approximation is that since both  $P(E;E_o)$  and  $P_{\text{surf}}(E_{\text{surf}};E)$  are Gaussian functions, ...”.
